

# HIDAYATH POST

A Quarterly Newsletter from Hidayath Group

ISSUE : 001 | Jul - Sep 2015

## HIDAYATH forays into **Oman**

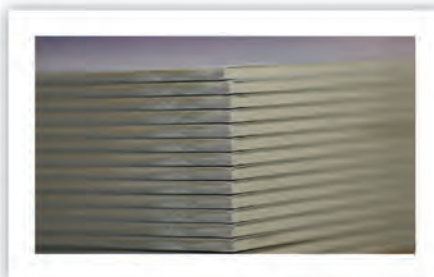

A drive to serve the Sultanate better

As part of the ongoing expansion drive, HIDAYATH GROUP, Dubai has forayed into Sultanate of Oman to better cater to its ever increasing customer base in the Sultanate. The facility is pegged to serve local retailers and fabricators in the country. Considering the escalating demand from discerning customers in Oman and adjacent markets, the group has opened up 10,000 Sq. Ft. facility to stock Long, Flat and Tubular products.

The vast inventories include Angles, Channels, Bars and Sections in Stainless Steel and Carbon Steel among long products; Plates and Sheets in Stainless Steel, Carbon Steel, Aluminium, Galvanized Iron, Copper and Brass in Flats and in Tubular we stock and supply Pipes (ERW & Seamless), Hollow Sections (Square, Rectangular), Tubes, Groove and Fittings in Stainless Steel and Carbon Steel. We also supply Architectural metal finishes including Bead Pattern, Brush, Emboss, Etch Pattern, Hairline, Mirror, Marble Design, Perforation, PVD and Vibration.

Being regarded as the most preferred metal service centre in the region with latest equipment and machinery, we will

soon start offering a wide array of services to the Architectural and Industrial sectors in the Sultanate, ranging from Coil Cutting (Cut-to-Length), Plate Bending, CNC Punching, Coil-to-Coil Punching, Arc Welding, Waterjet and Plasma Cutting, to name a few.

## Chairman's Message

I am immensely delighted to welcome you to the first edition of HIDAYATH POST. It is scheduled as a quarterly newsletter to bring forth the latest developments and innovations by Hidayath in particular and the Steel and Metal industry in general. The newsletter will focus on Architectural and Industrial developments in stainless steel and allied metals, apart from showcasing launches and technological evolution in machineries and equipments.

As we approach our 40th anniversary, we are pleased with our dynamic growth in architectural, industrial and service industry. Our ambitions are to provide total solutions in stainless steel and allied metals across different sectors and as part of our ongoing effort to further our presence across Middle East, South East Asia, Africa, Europe, Australia and C I S Countries, we are tirelessly developing solutions by offering expertise in design and support it with continuous lifecycle services.

Warm Regards,  
Hidayathulla Abbas

Chairman of Hidayath Group

**Imran Hidayath** CEO - Hidayath Group

## HIDAYATH sails in to the KINGDOM

Hidayath Group has established a full fledged office in Jeddah, Saudi Arabia

### SAUDI HIDAYATH

“It is a great moment for us to establish our physical office in Saudi Arabia,” says Imran Hidayath, CEO, Hidayath Group.

“Although we have been handling many prestigious projects in the Kingdom of the likes of the Haramain, Masjid Al Nabawi, Princess University, Al Khobar Gate to name a few, it was extremely vital to be there to enhance our geographical proximity with our existing clientele, adds Imran. Being in the Kingdom would certainly help us in understanding our customers’ requirements better and to

serve them with ease.

Saudi Hidayath, based in Jeddah, will primarily focus on Architectural & Industrial Material supplies to fabricators across Oil & Gas, Construction, Roads & Railways, Airports & structural fabrication. However we will equally be focused to supply our vast product portfolio to retailers and resellers. And as a group company, we will gradually provide complete solution in stainless steel and allied metals from manufacturing, Industrial fabrication and services to the entire steel industry across Saudi Arabia and adjacent markets.

## EMBOSSING STAINLESS STEEL

### Hidayath adds surface value to architectural Stainless Steel

Hidayath Group has been providing the Middle East architectural stainless steel industry with unimaginable solutions over the past four decades. Apart from Long, Flat, Tubular products in stainless steel and allied metals, HIDAYATH prides in being the first to establish Titanium Coating facility in the country, Hidayath offers a wide array of Architectural Finishes thus enhancing the

durability, look and feel of stainless steel sheet applications. In addition to the widely used finishes like Bead Pattern, Brush, Etch Pattern, Hairline, Mirror, Marble Design, Perforation, PVD and Vibration, we have started offering a new finish called EMBOSS in Leather, Linen and SWL as of now.

This process utilizes heavy duty patterned

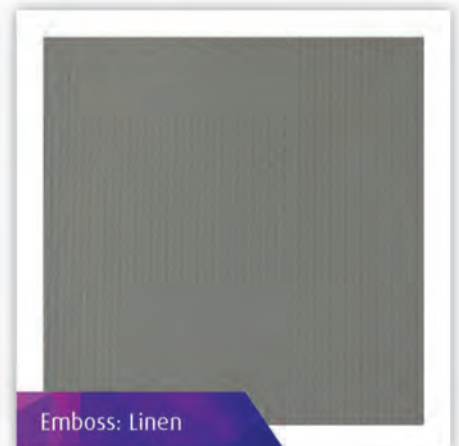

rolls through which sheets are passed and imprinted with the same design as the rolls. It is advisable to keep the thickness as low as possible in order to achieve maximum depth of pattern on the sheets. Embossed sheets tend to show an increase in strength and is anti vandal. The finish is available in sheets with maximum width of 1250mm and maximum thickness of 1.2mm.

Emboss: SWL

Emboss: Leather

Emboss: Linen

# Hidayath Heavy Industry's Successful **Skid Test**

An attribute to our chairman and dedicated engineering team

In its rise to become a technology leader in the region, Hidayath Heavy Industry HHI) has been making strong inroads in production and industrial engineering for upstream, downstream and midstream sectors. The core business of this unit is to produce structural products, pressure vessels, Shell & Tube heat exchangers, Air Cooled Heat Exchangers and Storage tanks.

Laying great emphasis on company values such as quality, service and customer satisfaction, our company continually strives to develop solutions that both match and exceed the clients' expectations, says Rehan Hidayath, Commercial Director. He further states that the latest achievement has been honored to Mr. Hidayathulla Abbas, our Chairman who is

**Rehan Hidayath**  
Director - Commercial, Hidayath Group

encouraging us to take challenging tasks and to our HHI team members who have been extremely instrumental in successful completion of this High pressure Critical piping in small allotted Skid area (~31m piperouting in 4 m2 skid area) connected with maximum industrial high pressure rated Flanges & Valves – 2500# RTJ in-line with stringent Client / Project Specifications.

## Hidayath Heavy Industry Widens its base

Building 79,000 Sqm. state of the art facility in DIC

In 2010, Hidayath Group successfully ventured into engineering and industrial fabrication with the aim of making inroads into Oil & Gas, Maritime & Shipping, Structural & Plant fabrication.

"It is indeed heartening that we have gained a considerable market share in UAE and some emerging markets in GCC. Despite stiff competition, constant price war and market volatility, we have been honoured with some prestigious projects across the region and we have successfully accomplished them" says Rehan Hidayath, Commercial Director, Hidayath Group.

We have commenced building our new state of the art facility in Dubai Industrial City admeasuring 79,000 square meters. The engineering & exotic metal fabrication facility, expected to be operational in the mid of 2016, is also equipped with indoor facilities for Electropolishing, Blasting & Painting and other steel & allied metal services.

**Farhan Hidayath** Director - Operations, Hidayath Group

## Hidayath **cuts** through to the top

Hidayath's Waterjet facility is the largest in the region

As the Middle East's most preferred metal service centre, HIDAYATH group has always been in the forefront in providing wide array of service to Architectural and Industrial sectors across many emerging markets. "According to Farhan Hidayath, Director - Operations, we have been continuously upgrading our machinery and equipment, thus enabling us to offer world class metal services with minimum turnaround time to a vast customer base". Our wide offerings in services include Coil -

cut-to-length, Slitting, Shearing, Bending, Rolling, Coil-to-Coil Punching, CNC Punching, CNC Lathe, Waterjet Cutting, Laser and Plasma Cutting and surface treatment, the recent development has been the installation of the largest Waterjet facility in UAE. With 7-Axis Autorotation cutting ability, this facility can handle stainless steel sheets/ plates with maximum thickness of 80mm, maximum length 13,000mm and maximum width of 3,000mm.

## Upcoming Events

### 20th Galvanizing & Coil Coating Conference

Inter Continental Hotel, Istanbul, Turkey  
7 - 8 September 2015

### 12th Steel Success Strategies International

Inter Continental Istanbul  
Istanbul, Turkey  
9 - 11 September 2015

### Iranian Iron & Steel Conference

Kish Intl. Convention Centre, Kish  
Island, Iran  
14-16 September 2015

### 10th International Steel Tube & Pipe Forum

Marriott Hotel, Cologne, Germany  
29 -30 September 2015

## HIDAYATH owns the **BENDING GIANT**

### HIDAYATH installs the largest bending machine in UAE

Over the past decade or so, the steel service sector has witnessed some phenomenal technological advancements; plate and sheet bending has too come off age.

While the International machinery and tool manufacturers have stepped up to invent products to meet escalating demands of the industry, HIDAYATH GROUP too rose to occasion yet again by installing the largest PLATE/SHEET BENDING facility in UAE to serve the local markets.

Standing at a height of 7mtrs, this giant tool with 7 Axis can handle bending of plates of maximum thickness of 26mm, and maximum bending length of 7,000 mm.
