Hidayathulla Abbas

Founder & Chairman Hidayath Group

Hidayathulla Abbas began his humble voyage in 1970's. He transitioned from trading in hardware to stainless steel material supplies and gradually gained sustainable momentum in becoming the market leader in trading, processing, project supplies, manufacturing and services of architectural and industrial products and solutions in stainless steel and allied metals.

Under his leadership as the founding Chairman of HIDAYATH GROUP, the group went from strength to strength and in just four decades it became one of the most recognised companies in the stainless steel industry globally. The pragmatic and organic growth of the group is an attribute to his vision, leadership, hard work, commitment, risk taking appetite and dedication.

His focus and understanding always aligns and complies with his underlined group objectives, with his continuous technological advancement, strategic acquisition and well planned forays into new markets, concrete inroads are always made into Architectural and Industrial sectors.

Founded in 1976 by Hidayathullah Abbas, Hidayath Group has grown from a modest trading operation in Abu Dhabi into a globally recognized enterprise delivering world-class stainless steel and allied metal products, systems and solutions for the Architectural, Industrial and Engineering sectors.

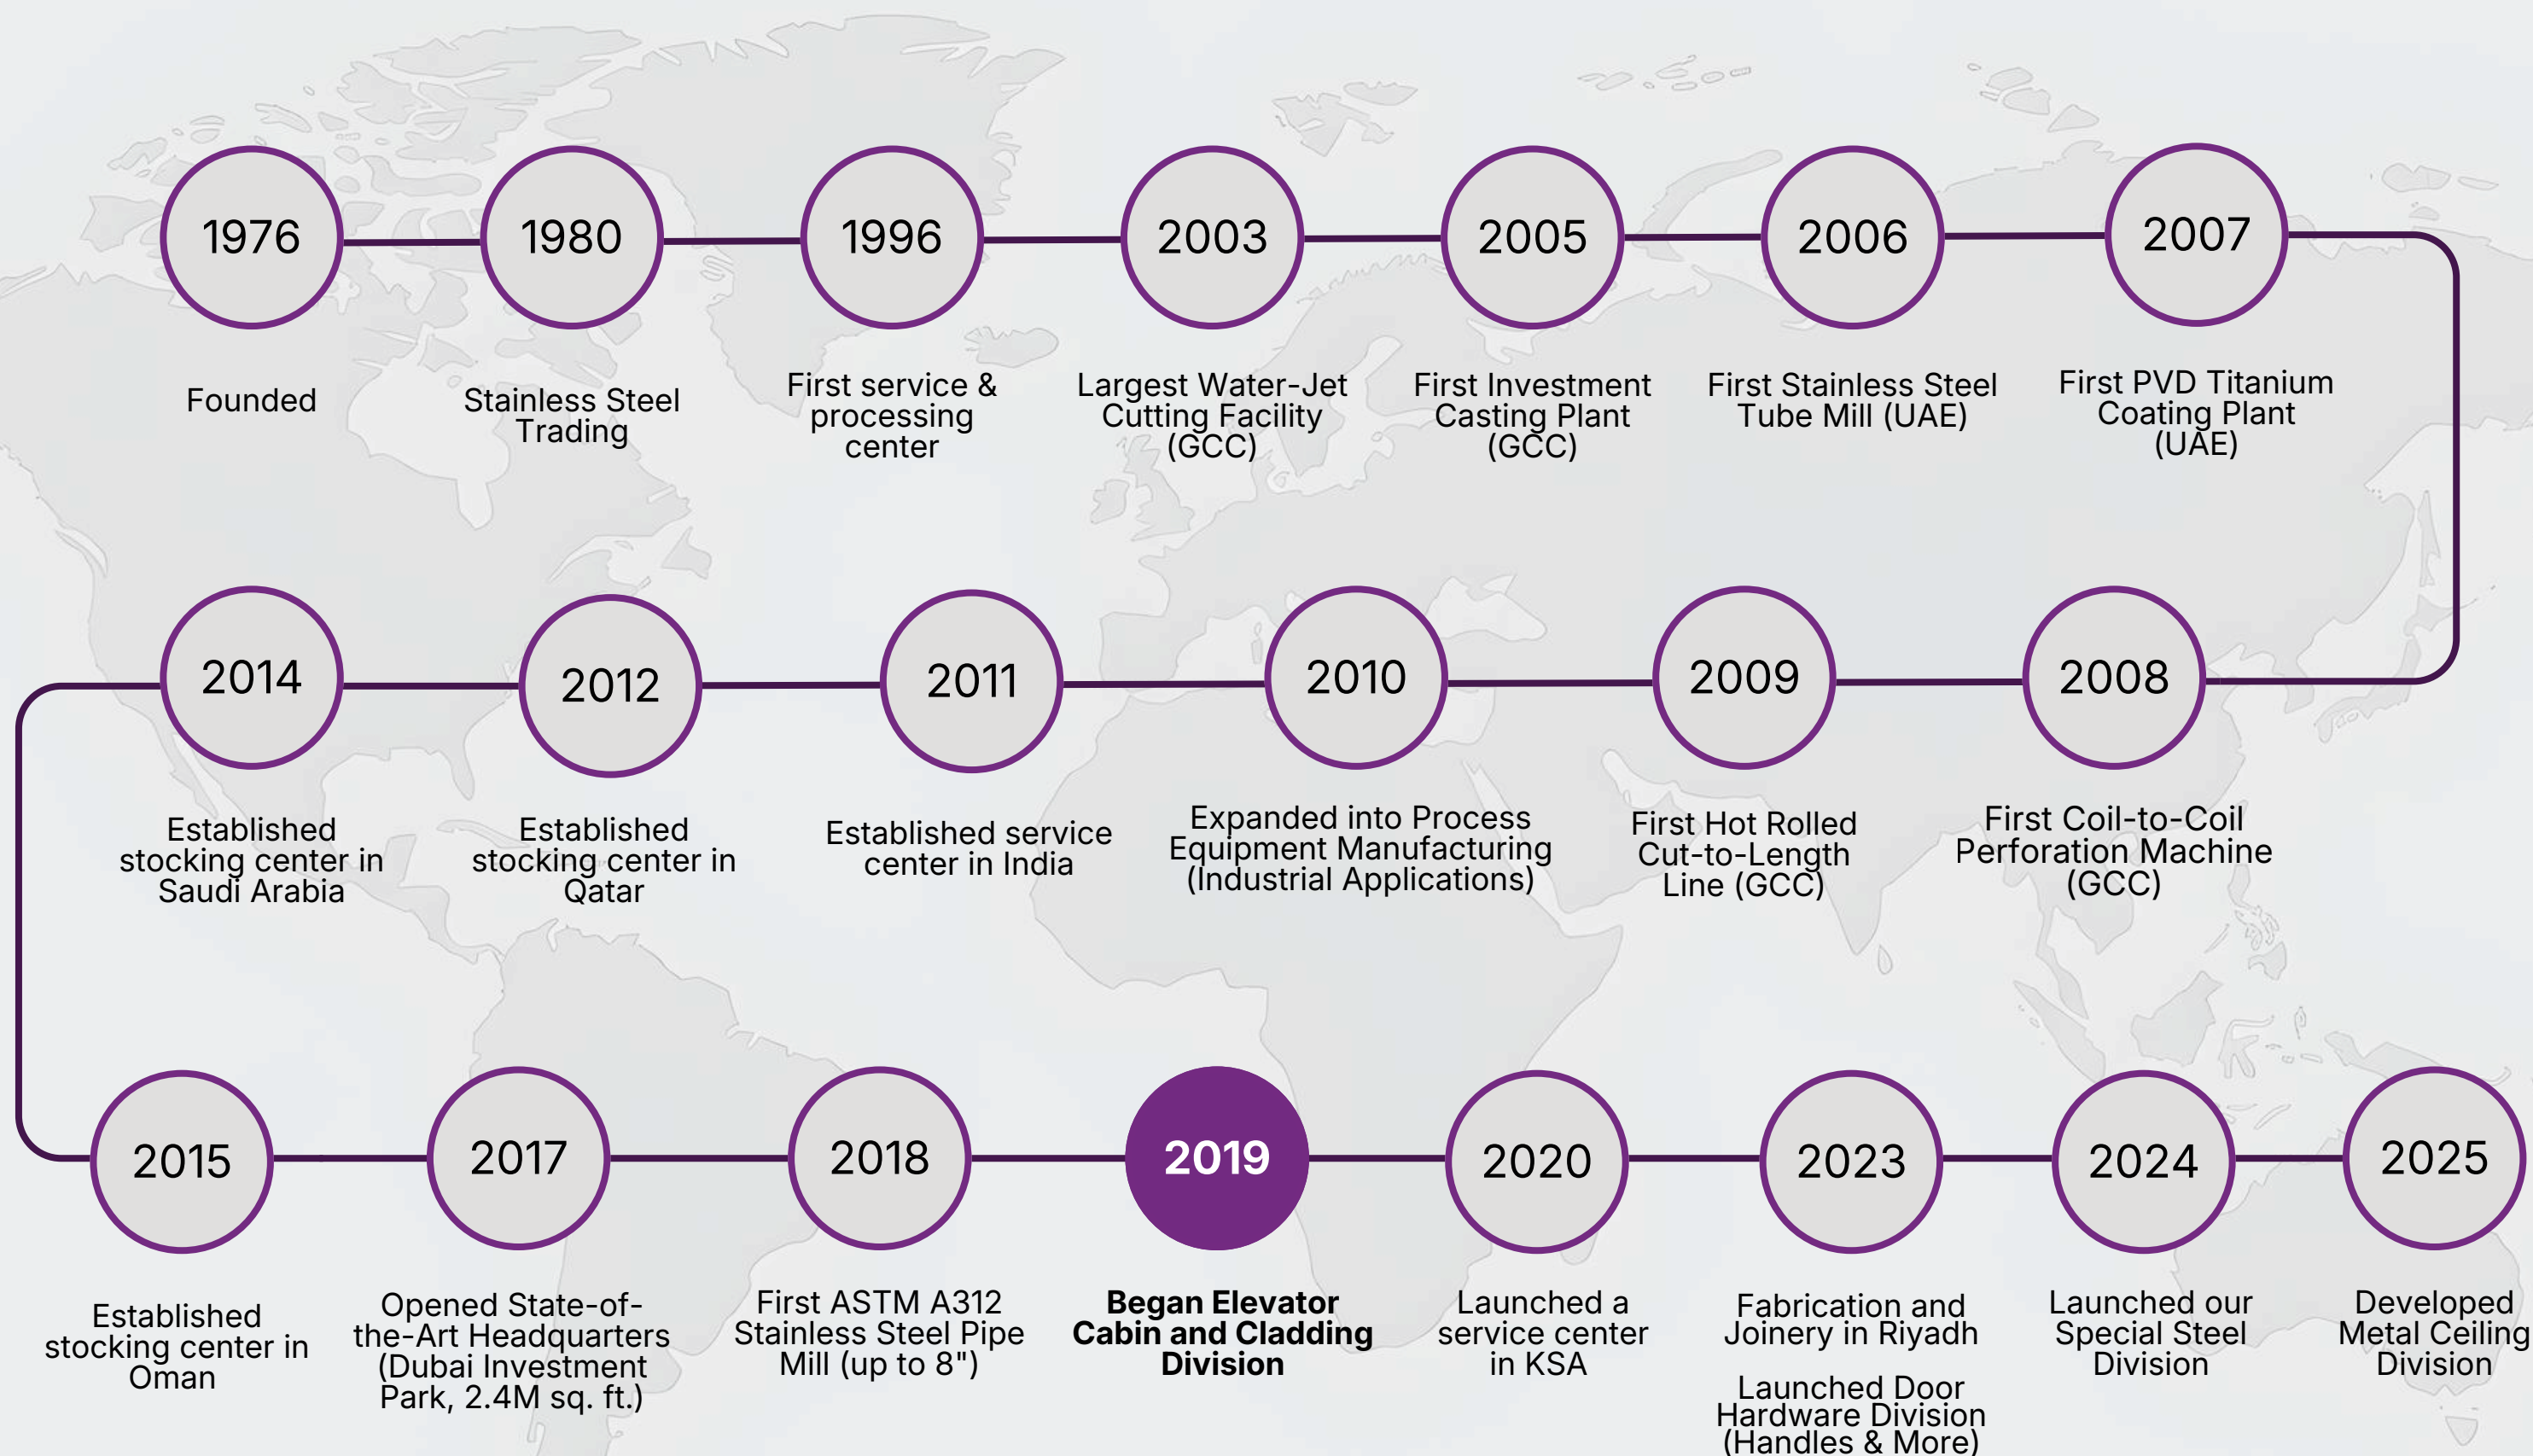

Headquartered in Dubai, UAE, the Group today operates across more than twenty countries on five continents, guided by a clear mission: to achieve global leadership as a complete solution provider in stainless steel and allied metals.

Over five decades, Hidayath Group has built a strong foundation rooted in manufacturing excellence, material supply and specialized services. Its pragmatic growth is driven by visionary leadership and a highly skilled workforce aligned with the Group's strategic goals and operational discipline. The company continues to invest in cutting-edge technology, workforce training, strategic acquisitions, and well-planned expansion into new global markets.

The Elevator Cabin Division at Al Hashimi Metal Products Manufacturing LLC specializes in the design, manufacture and installation of elevator cabins and components for architectural and industrial applications. With over 50 years of experience in stainless steel and allied metal fabrication, the division is recognised as a reliable design and fabrication partner to elevator companies worldwide, supplying cabins for villa, passenger, observation, hospital and freight elevators.

As one of the largest stainless steel and allied metal stockists, and a leading manufacturer of stainless steel finishes and PVD coloured sheets, the division offers a wide range of material and finish combinations to suit all project requirements. It has supplied clients across more than 30 countries, with a strong presence in Southeast Asia and the Middle East.

HIDAYATH GROUP

Mission

- To be “The Complete Solution Provider” in stainless steel and allied metals for the Architectural and Industrial sectors across the Middle East, South East Asia, Africa, and CIS countries.
- To develop innovative solutions backed by deep industry expertise and supported through comprehensive life-cycle services.
- To invest continuously in training our personnel, and in upgrading and modernizing our equipment, technology, and processes to consistently exceed client expectations.
- As an ISO-certified organization, we adhere to stringent industry standards, ensuring unmatched quality at every level of operation.

Vision

- To be the top-performing and most admired stainless steel and allied metal solutions provider in the Middle East.
- To be recognized and relied upon as the partner of choice, regardless of project scale or client size.
- Our vision serves as the strategic framework guiding every aspect of our business—defining what we must achieve to ensure continuous, sustainable, and quality-driven growth.

Imran Hidayath
CEO & Managing Director

Leads Hidayath Group's strategic direction and global expansion across 15 countries.

Rehan Hidayath
COO & Executive Director

Drives industrial fabrication and manufacturing growth through Hidayath Heavy Industry.

Bharat Raj
Branch Manager

Oversees operations at Al Hashimi Metal's facility, supporting fabrication and project execution.

FACILITIES

A black and white photograph of a modern building's interior atrium. The space is characterized by multiple levels of curved balconies with glass railings, creating a sense of depth and architectural complexity. A central vertical shaft, likely for elevators, runs through the middle of the atrium. The lighting is dramatic, with strong highlights and deep shadows, emphasizing the geometric forms and materials of the architecture.

From functional components to refined architectural finishes, our elevator solutions combine precision engineering, quality materials and meticulous workmanship. Each element is designed to contribute to the performance, durability and visual appeal of the space.

From jambs, cabin interiors and handrails to car and landing doors, ceilings and car operating panels, we deliver carefully crafted solutions tailored to the demands of modern architectural spaces.

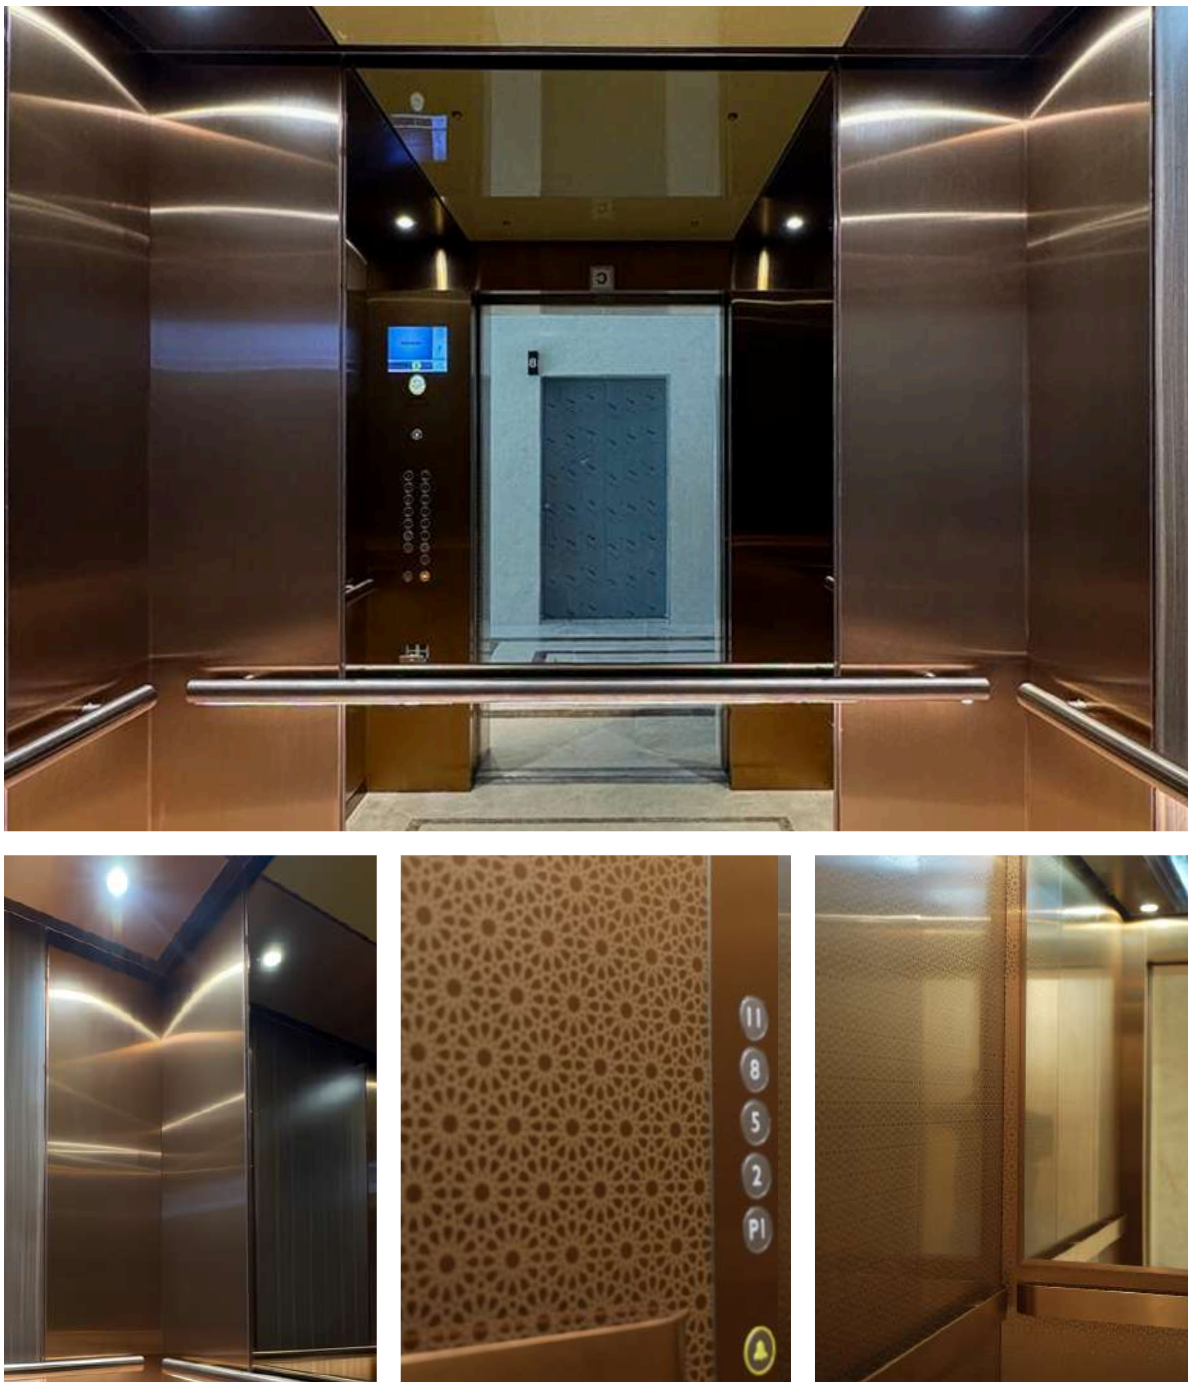

The jamb forms the frame around the elevator entrance on each floor, marking the transition between lobby and elevator.

MATERIAL	Stainless Steel
GRADE	SS 304 and SS 316
SUBSTRATE SURFACE	Brush, Hairline, Vibration and others except Etch patterns
SUBSTRATE COLOUR	All PVD colours

The cabin interior is the enclosed space passengers occupy during transit, formed by the surrounding wall surfaces and finishes.

MATERIAL	Stainless Steel
GRADE	SS 304 and SS 316
SUBSTRATE SURFACE	Brush, Hairline, Etch patterns and others
SUBSTRATE COLOUR	All PVD colours

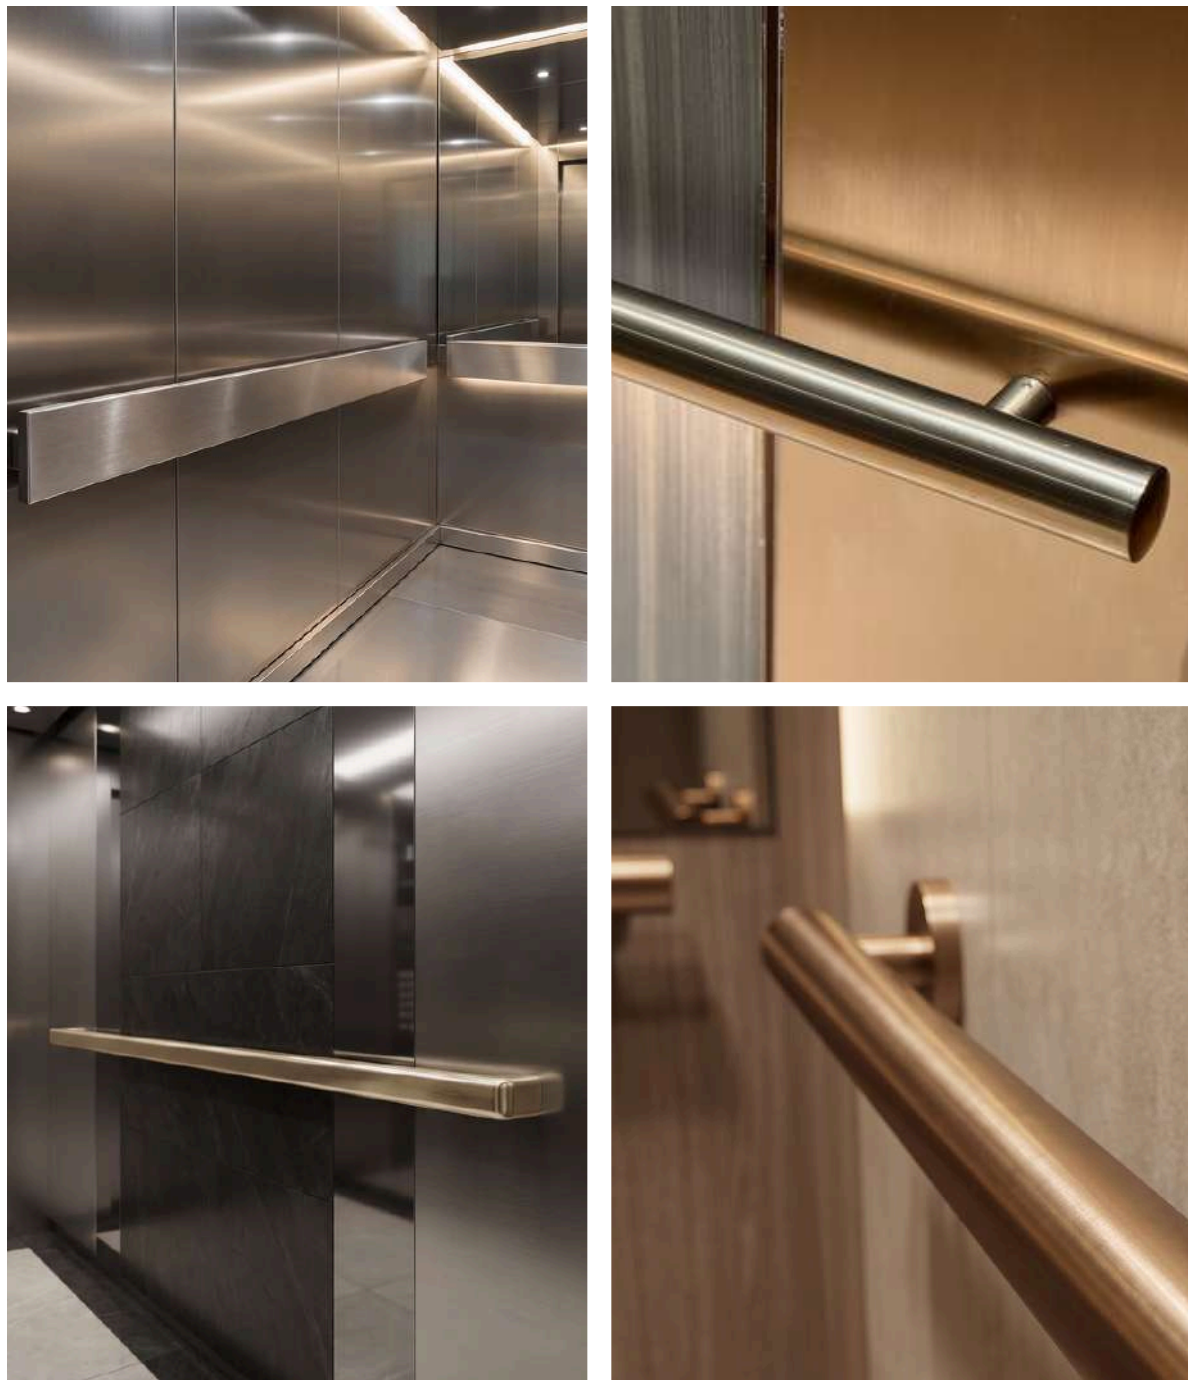

HANDRAIL

Handrails are fitted inside the cabin to support passengers and assist with balance during transit. They are positioned and profiled for a secure grip.

MATERIAL	Stainless Steel
GRADE	SS 304 and SS 316
SUBSTRATE SURFACE	Brush, Hairline, Vibration and others
SUBSTRATE COLOUR	All PVD colours

CAR DOOR & LANDING DOOR

The car door and landing door work together to allow safe entry and exit at each floor, opening and closing many times a day.

MATERIAL	Stainless Steel
GRADE	SS 304 and SS 316
SUBSTRATE SURFACE	Brush, Hairline, Vibration and others
SUBSTRATE COLOUR	All PVD colours

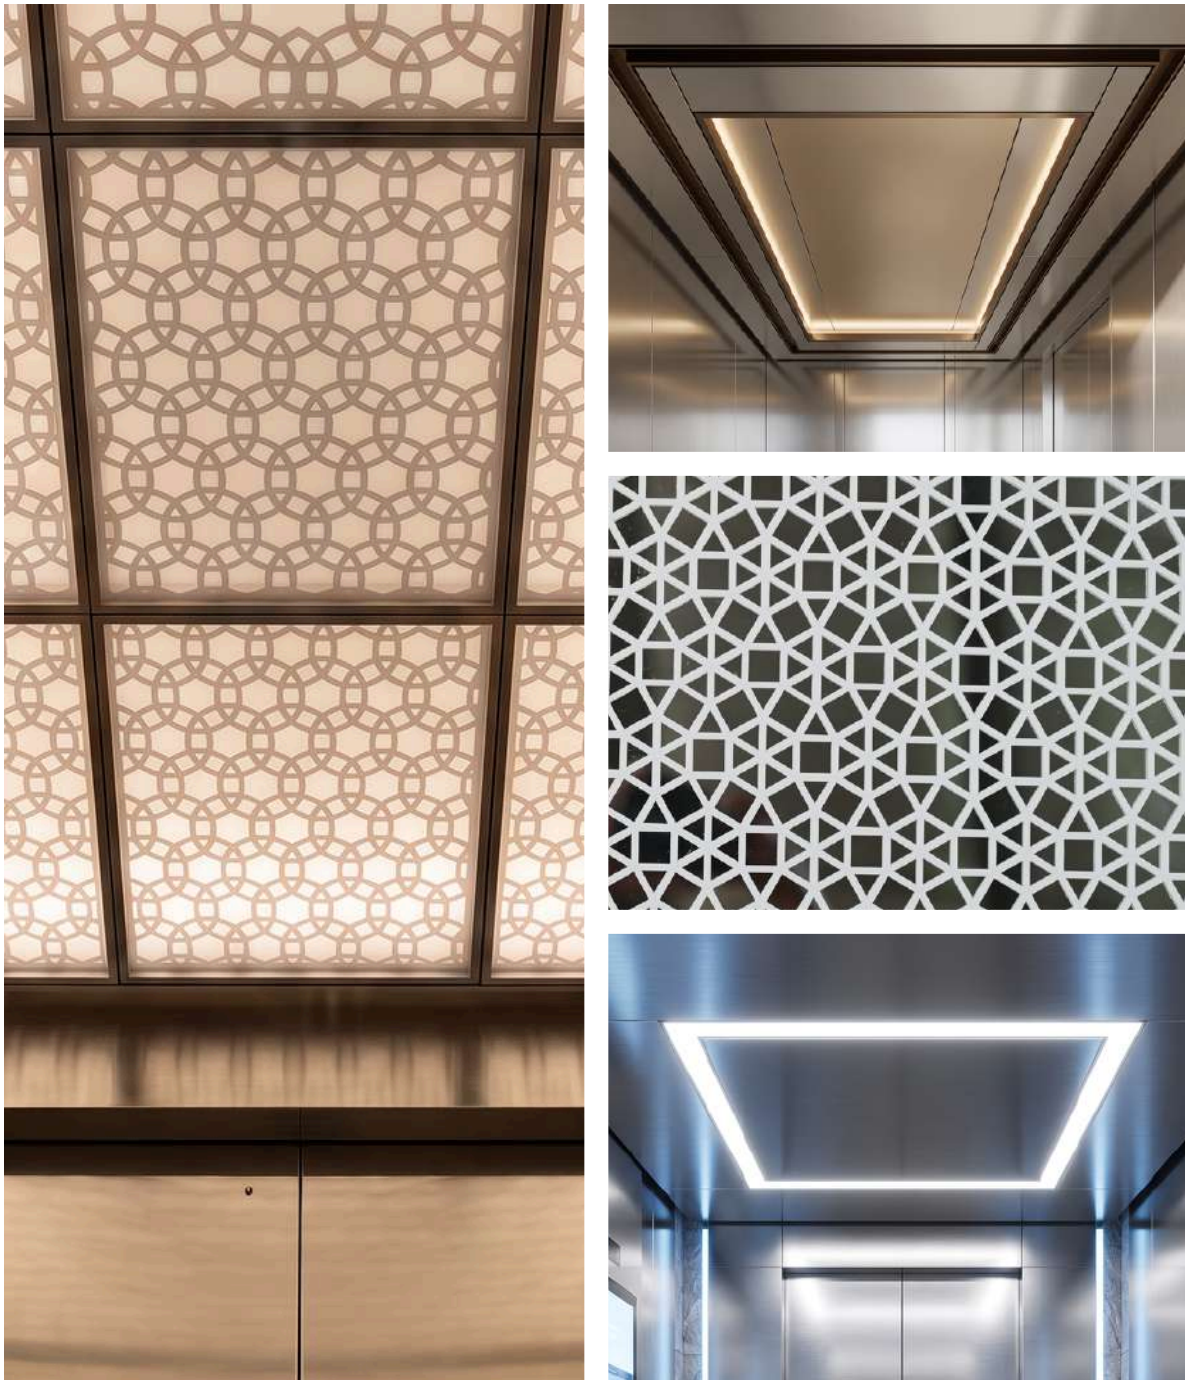

CEILING

The cabin ceiling is typically constructed as either a tray ceiling or a fall ceiling, often incorporating the lighting layout.

MATERIAL	Stainless Steel and Acrylic
GRADE	SS 304 and SS 316
SUBSTRATE SURFACE	Brush, Hairline, Vibration and others except Antique finishes
SUBSTRATE COLOUR	All PVD colours

CAR OPERATING PANEL

The car operating panel houses the floor buttons, indicators and controls used by passengers throughout the journey.

MATERIAL	Stainless Steel
GRADE	SS 304 and SS 316
SUBSTRATE SURFACE	Brush, Hairline, Vibration and others
SUBSTRATE COLOUR	All PVD colours

The management of Hidayath Group is committed to continuous quality improvement and is most conscious of the need to;

- Sustain continuous improvement in quality standards of services provided by the company and ensure that all contractual requirements of its customers are consistently achieved.
- Provide documented assurance to determine that specified customer requirements have, can, and will be achieved.

To meet these objectives, the application of the Quality System outlined in Quality Manual has been developed in accordance with the requirement of ISO 9001:2008.

Compliance with the requirements of the detailed procedures outlined in the Quality Manual is mandatory for all staff members.

At Hidayath Group, we care about the safety, health and well-being of our employees. We value the contributions our employees make toward our success, support local community interests, and value honesty, integrity, and teamwork.

We Value Our Employees

Our business operates with a goal of zero damage to people, property and product. At Hidayath, everyone shares equally the responsibility of identifying hazards, following safety rules and operating practices. All jobs and tasks must be performed in a safe manner, as safety is crucial to the quality of our products/service.

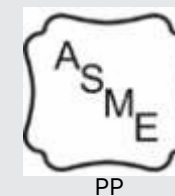

Our commitment

At Hidayath, no phase of the operation is considered more important than accident prevention. We are committed to provide and maintain safe working conditions and to follow operating practices that will safeguard all employees. No job will be considered properly completed unless it is performed in a safe manner. Hidayath is concerned about the health and good work habits of its employees. In the event you are injured or unable to perform your job, we want to help you obtain the best treatment, so you can return to your regular job as soon as possible.

All employees shall ensure alignment of their plans and activities with this policy and commit to the guiding principles of company's Occupational Health & Safety Management System OHSAS 18001: 2007.

Our efficient R & D enhances the current business by:

- Continuous technology up-gradation by identifying industry benchmarks
- Identifying the gaps and prioritize areas of immediate improvement
- Ensuring inter-facility integration
- Speedy application and implementation of advanced technology
- Identifying better methods through critical analysis & brainstorming for all the critical operations/processes with an overall objective of improving the productivity of all their sources.
